

All about Jo Clarke

I am Advisory Teacher for Assistive Technology including Augmentative and Alternative Communication (AT/AAC)

One thing I like.....

In work: working effectively with students and other professionals

Outside of work: spending time socialising with my widespread family.

One thing I don't like is...

In work: when I can't fit everything in!

Outside of work: when my husband who is disabled cannot access somewhere.

The best way to communicate with me is...

Via email jclarke@swindon.gov.uk

You can also ring me 07966 949830, but if I am in a setting, the call will go to voicemail.

The best thing about my job is...

Finding an inclusive solution that works to support students to be more independent or to give better access to the curriculum.

Words that describe me...

Approachable, flexible, team player, knowledgeable

I promise that:

1. I will always try to be clear and professional in all communications and reports, to listen carefully and consider different viewpoints.
2. I will have the student's welfare at the heart of any recommendations I make.
3. I will try to find solutions that work for individuals in their settings to overcome barriers and increase independence.
