

All about Morgan-Ly Culley

I am a: SEND apprentice

One thing I like is...

In work: Working within a team of different experience SEND roles which allows me to progress and expand my knowledge within SEND and helping children with SEND.

Outside of work: Playing football, walks and days out with my family.

One thing I don't like is...

In work: Working from home and not being able to have face to face meetings with necessary colleagues and families.

Outside of work: Bees or Wasps.

The best way to communicate with me is:

Through email: SENDservice@swindon.gov.uk or by phoning the SEND Service front door on **01793 464641** and asking to speak with me. If you require me to complete any actions, please list this in an email providing details on the action to be completed and a timescale in which you would like this completed by.

The best thing about my job is...

The variety of tasks/projects I am involved in. As well as learning my new role within the SEND team whilst continually developing my knowledge and skills through working with a knowledgeable and experienced team.

Words that describe me...

Determined, bubbly, honest and hard working.

I promise that:

1. I will complete all set tasks to the best of my ability and communicate with my line manager or mentor if I feel I need support to complete tasks to the best standard.
2. I will prioritise tasks to meet deadlines whilst working in a professional way at all times to provide families and young people with the most effective service.
